

What is advocacy?

Advocacy is about:

- safeguarding people who are in situations where they may be vulnerable
- speaking up for, or standing alongside people who may not to be heard - supporting them to express their views and make their own decisions and contributions
- enabling people to make informed choices about, and remain in control of, their own social and health care

This is a professional and independent advocacy service, providing issue-based individual and collective advocacy support.

Specialised advocacy is available with regards to recovery and addiction. Recovery advocacy can offer individuals the opportunity to take control of their own recovery.
